Educational Background

Summa Cum Laude, Phi Kappa Phi
Marilyn Werby Memorial Scholarship Award
California State University, Long Beach, August 2001

Project: *Notes on Love and Fear*. Abstracted from the project report: *The intent of this project is to give form to the vitality of my subconscious which encompasses the battle between fear and love that is a constant in my internal life: thus extending and sharing my consciousness with the external world. I wanted the work to walk the edge of the existential abyss with a sense of the enigmatic where fear and love exist, not in a dualistic relationship of opposite poles, but in a paradox of being in the same space at the same time.*
